

POISONING PREVENTION HERO CHECKLIST

These tips will help keep you and your family safe from poisons. Ask an adult to help you check them all and become a **Poisoning Prevention HERO!**

- I always ask an adult first before I handle any cleaners, bug sprays, or other household products.
- My family never stores household products in dishes or containers used for food and drink.
- I only take medicine given to me by my parent or an adult who is taking care of me.
- My home has carbon monoxide alarms.
- All medicines and household products in my home are kept up high, where young children can't see or reach them.
- My family has the PoisonHelp hotline saved into all smartphones in case someone swallows, touches, or breathes a poison: **1-800-222-1222.**

Name: _____

Date: _____
