

The Illinois Poison Center (IPC) of the Illinois Health and Hospital Association seeks a Specialist in Poison Information to work for the longest established poison center in the U.S.

Chicago is a vibrant city known for its dining, shopping, architecture, beautiful parks, proximity to Lake Michigan, and cultural attractions. The IPC office is located in the West Loop. Chicago is a great place for a poison center career; the IPC works directly with 11 medical toxicologists, 4 clinical toxicologists and 4 medical toxicology fellows. Staff development, research, and student/resident precepting opportunities are available. Certified SPIs are eligible to work up to a maximum of 40% of their hours remotely.

Current CSPI certification; Doctorate in Pharmacy; Masters Level Physician Assistant; or a Bachelor of Science in Nursing or Pharmacy with three or more years ED or ICU experience required. Exceptional clinical pharmacology and calculations skills; organizational, emergency management, communication, and conflict management skills required. Incumbent must sit for the AAPCC Certified Specialist in Poison Information Exam during the first qualifying exam cycle, and pass the exam within 2 attempts (if not already certified). Performance of job responsibilities for this position is primarily day and evening (including every other weekend), with occasional night and holiday hours.

We offer an excellent benefits package. Qualified candidates must apply online: [Click here to read full job description and apply](#)

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, status as a protected veteran, or any other legally protected status.
