

HIRING FOR FULL-TIME SPI POSITION IN COLUMBUS, OHIO!

We are looking for an interested, hardworking, and motivated candidate to join our team!

The Central Ohio Poison Center (COPC) is located in downtown Columbus, Ohio and based at Nationwide Children's Hospital. COPC serves a population of roughly 5.5 million Ohioans across 64 of Ohio's 88 counties. Our medical toxicology service rounds at Nationwide Children's Hospital and hosts a robust Poison Center rotation for medical and pharmacy students, residents, and fellows from more than a dozen schools and postgraduate training programs.

This is a full-time position. Shifts will be primarily afternoon/evening and will be included in the centers' occasional night-shift rotation. We offer educational and outreach opportunities, participation in annual conferences, and competitive salary with full benefits package available through Nationwide Children's Hospital. We are an AAPCC-accredited poison center with a dedicated staff of CSPI credentialed, or eligible, nurses and pharmacists. Applicant must be a licensed BSN, BS in Pharmacy, or PharmD, preferably with 1 year critical care or emergency medicine experience. CSPI is preferred but not required.
