

Kansas Poison Control Center at **The University of Kansas Health System** is looking for a full-time ***Specialist in Poison Information*** (SPI)!

The Kansas Poison Control Center at The University of Kansas Health System is seeking to fill a full-time night position for a Specialist in Poison Information. Applicants should be RN or PharmD, and eligible for licensing in KS. CSPI is preferred, but not necessary.

The Kansas Poison Control Center is accredited by the AAPCC and has an established team that is active at the local, state, and national level. Our center is a rotation site for pharmacy students. The Poison Center is part of the Department of Pharmacy at The University of Kansas Health System in Kansas City, Kansas. Our Poison Center serves 105 counties in Kansas.

Kansas City is a fast-growing metro and is ranked in the top 50 Best Places to live in the U.S., offering affordable housing, pro-sports events, fantastic arts and culture and of course more barbeque restaurants per capita than any other U.S. city.

Kansas City lies in the Midwestern United States, near the geographical center of the country at the confluence of the Missouri and Kansas Rivers. Although known for its barbeque, jazz heritage and fountains, Kansas City is also home to the Super Bowl winning Chiefs, the Royals and Sporting Kansas City.
