

## CSPIs, Join Our Team!

- The Washington Poison Center is currently accepting applications for CSPIs.
- WAPC is a stand-alone 501c3 corporation, contracted to the Washington State Department of Health.
- The [Washington Poison Center](#) is progressive in its public health outreach and emergency preparedness.
  
- Everyone knows we have beaches and mountains; we also have access to hiking, culture, amazing food, coffee, wineries, craft breweries, and more!
  
- Did we mention mild summers and winters?
  
- [Seattle](#) is nestled between Lake Washington to the east, Puget Sound to the west, and mountains on either side.
  
- We encourage professional development for our staff and provide a Career Improvement Program that allows staff to acquire and/or enhance their knowledge and skills in a particular area.
- We provide opportunities to be involved in educational, outreach, or legislative activities beyond their core responsibilities.
- If you are passionate about toxicology and public health, are committed to making a difference, we want to hear from you!
  
- We offer an attractive benefit package for regular staff, including medical/dental/vision insurance, life insurance, long-term disability, holidays, sick leave, 401(k), flexible spending accounts for medical or childcare, and free parking.
  
- **Relocation Assistance is available**
